# DuRSAAM midterm workshop

## Special Session on Alkali-Activated Materials

28 and 29 April 2021 – The Hague (NL)

hosted by Microdurability2020-Conference

## Call for Abstracts

### Why this special session

Interest in eco-friendly concretes is rapidly increasing, among which concrete based on alkali-activated materials (AAM, sometimes also called geopolymer concrete). Linking experts brings perspectives in a more sustainable built environment and AAM.

### How to submit your abstract

You can submit your abstract for the special session up to the 31/10/2020. The procedure for submission is available at [www.microdurability2020.com](http://www.microdurability2020.com)

### Where and when you can attend

The special session is kindly hosted by the Microdurability2020-Conference the 28<sup>th</sup> and 29<sup>th</sup> of April 2021 in The Hague (NL). More information on the conference venue and programme is available at [www.microdurability2020.com](http://www.microdurability2020.com)

### Registration fee

A registration fee is required, as follows:

- Special session (2 days): 300€
- Microdurability2020conference (incl. dinner & special session): 450€

For registration visit the conference website.
