

## **IMPORTANT UPDATE**

Considering the current situation of COVID-19 in the Netherlands and in Europe, the Microdurability Conference has been turned into Webinar. Following the decisions of the conference organizing committee, the “Special session on geopolymer concrete” is proposed as a series of 3-day online meetings. We hope to see you at the special session.

The PhD Training Network on **Durable, Reliable and Sustainable Structures with Alkali-Activated Materials**

DuRSAAM looks forward to welcoming you at the

## **Special session on geopolymer concrete**

29<sup>th</sup> April, 4<sup>th</sup> and 6<sup>th</sup> May 2021

hosted by **MicrodurabilityWebinar**

### **Why this special session**

Interest in eco-friendly concretes is rapidly increasing, among which concrete based on alkali-activated materials (AAM, sometimes also called geopolymer concrete). Linking experts brings perspectives in a more sustainable built environment and AAM.

### **How to join the special session**

To join the special session a registration is required by the 28<sup>th</sup> of February.

[Registration](#)

### **Where and when you can attend**

The special session is kindly hosted by the MicrodurabilityWebinar as a series of 3-day online meetings. More information on the webinar programme is available at

[www.microdurability2020.com](http://www.microdurability2020.com)

### **Registration fee**

A 100 euros registration fee is required. The registration fee allows you to attend the entire MicrodurabilityWebinar.

You can follow us on [www.DuRSAAM.eu](http://www.DuRSAAM.eu)

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 813596 DuRSAAM.
